Subject Index

A 3-year community-based periodontal disease prevention programme for adults in a developing nation, 323
Anti-plaque dentifrices: current status and prospects, 117
Biomechanics of the intact, prepared and restored tooth: some clinical implications, 25
Criteria for substituting amalgam with composite resins, 195
Delivery of health care to the elderly patient, 295
Dental claims in the Swedish Patient Insurance Scheme, 157
Dental health of schoolchildren 5 years after water fluoridation ceased in south-west Scotland, 43
Dental public health and infection control in industrialized and developing countires, 341
Dental status of children in a primary and secondary school in rural Zambia, 142
Dentists' perceptions of HIV/AIDS as an occupational hazard: a qualitative investigation, 259
Detection and management of the high risk periodontal patient, 300
Diagnosis of secondary caries and crevices adjacent to amalgam, 359
Ethics: what can editors do?, 124
Evaluation of utilization of complex periodontal care in an industrialized country with a national health insurance, 49
Clinical effect and mechanism of cariostatic action of fluoride-containing toothpaste: a review, 171
Current status of the use of ultrasound in endodontics, 175
Fluoride dentifrices: current status and prospects, 9
Founders of the American Association of Women Dentists: their legacy lingers on, 240
Iatrogenic injury of the pulp in dental procedures: aspects of pathogenesis, management and preventive measures, 99
Luting cements: a review and comparison, 81
Minimal treatment of the carious lesion, 55
Multiple treatment of the carious lesion, 55
Multiple medication: problems of the elderly patient, 348
Oral manifestations of AIDS: an overview, 3
Oro-facial neoplasms: global epidemiology, risk factors and recommendations for research, 365
Orthodontic abnormalities in patients with eating disorders, 212
Osseointegrated implants in the oral habilitation of a boy with ectodermal dysplasia: a case report, 149
Periodontal epidemiology in Italy by CPITN, 313
Periodontal regeneration: myth or reality?, 287
Periodontal treatment and prophylaxis in the frail elderly, 225
Potential teratogenic and carcinogenic effects of dental materials, 206
Preventive implantations, 17
Primary failure of eruption: a case report, 274
Profiles of periodontal conditions in adolescents measured by CPITN, 67
Profiles of periodontal conditions in adults measured by CPITN, 74
Radiographic evaluation of apical periodontitis and endodontic treatment results: a computer approach, 89
Rebuilding the ruins: dental services and manpower in Cambodia, 305
Replacement complete dentures: no friends like old friends, 233
Role of chlorhexidine in the management of dental caries, 279
Role of toothpastes in cleaning of teeth, 164
Simplified cross-infection control: a study of cost, time and patient flow in Antigua, 335
Surgical management of endodontic failures: indications and treatment results, 33
